

Clinical Decision Pathway

COVID-19 in LTC Residents

This algorithm assumes public health authorities are involved and are coordinating outbreaks in facility, and is meant to aid clinicians to manage care of residents with COVID-19 LTC.

!

Avoid aerosol generating medical procedures, including:

- Nebulized medications
- CPAP
- BIPAP
- High flow oxygen greater than 6 liter/min
- For ventilator dependant patients, ET tube repositioning or deep suctioning.

If unavoidable ensure PPE includes N95 mask.
